WANT ROESCH'S HEAD BULLS RESIST A STOCK RAID.

His Attack on Bremer Stirs Up a After Some Wavering the Market Hornet's Nest.

Charges May Be Made Against the Civil Justice.

He Asks the Clerk's Removal on a Flimsy Pretext.

There will be music to-morrow morning for the period named, against £39,924 in the General Term Court, when the petition of Civil Justice George F. ments generally are poor and without Roesch for the removal of the Assistant Clerk, Alexander Bremer, comes up for argument. The Judge, as is well known, is an ardent Tammany man, waile the clerk whom he wants removed belongs to the Steckler organization, and is therefore anti-Tammany, Politics pure and simple, it is asserted, is at the bottom of

The charges preferred against Bremer are neglect of duty, in being absent from business during the days of May 1, 2, 3 and 4. As a matter of fact he was then attending the National Musical League Convention in Baltimore, to which he had been elected a delegate by the German Musical Unions, of which he is President.

(By Associated Press.)
CHATHAM, Ont., May 17.—A new party has been organized in this city under promising auspices. It is to called the Federation of Democrats of Canada. ing was largely attended and many citi-zens signed the membership roll. The promoters declare the movement wil spread throughout Canada, and a sys-tem of active propagation will displace such organizations as the A. P. A. Equal Rights and other guids. The Democrats are in favor of a nearer approach to the American sys-tem in Canada, particularly as to the popular election of officials.

Took a Rise.

Later a Jerky Sort of Movement Set In.

The bears were not so successful this morning in beating down prices, although they had in their favor a further decline in London and the St. Paul statement for the second week of May. The latter shows earnings of \$497,914 ments generally are poor and without prospect of any immediate improvement. so that there is really no incentive to capitalists to go ahead and load up with stocks.

The market is sustained chiefly by the short interest, which is large, consider-ing the narrow speculation. The bears at the same time lack courage, and are easily put to flight. After wavering for half an hour or so

After wavering is not an about of so the leading shares went up with a rush. The offerings were comparatively light, and so the bulls had an easy time of it.
